

LEAP Database Tables & Relationships

Generated at 02 Sep 2026, 10:00 AM IST from db/schema.rb version 2026-08-31-143000 and app/models association declarations.

32Application tables

44Foreign-key relationships

76Model association lines

Module Wise Tables

Module	Tables
Employee, Access & Assignment	employees, users, vertical_percents, employee_vertical_mappings, parent_activity_assignments, action_plan_vertical_mappings, action_plan_fco_mappings, project_ownerships
P&B Planning & Summary	bli_activities, plan_submissions, plan_submission_items, project_summary_submissions, project_summary_submission_items, pb_import_files, budget_utilizations
Action Plan & Achievement	action_plan_import_files, action_plan_rows, action_plan_submissions, action_plan_month_changes, achievement_submissions, achievement_submission_rows, achievement_entry_details
Reports & Documents	project_information_sheets, pis_document_types, pis_report_documents, donor_report_types, donor_report_uploads, fund_report_types, fund_report_uploads, active_storage_blobs, active_storage_attachments, active_storage_variant_records

Important Notes

- action_plan_rows is the main imported action plan data table used by project and vertical action plan flows.
- action_plan_submissions stores approval workflow records. The plan_type column separates project and vertical submissions.
- bli_activities, plan_submissions, and project_summary_submissions are the core P&B planning and summary approval tables.
- Rails Active Storage tables store uploaded file metadata and links; actual files are managed by the configured storage service.

users.employee_id	employees.id

Table Details

achievement_entry_details [Action Plan & Achievement](#)

Purpose: Achievement entry detail rows linked with action plan rows. Stores entered achievement values and supports attached evidence files.

Related from this table: achievement_entry_details.action_plan_row_id -> action_plan_rows.id

Referenced by: None

Model associations:

- AchievementEntryDetail line 5: belongs_to :action_plan_row
- AchievementEntryDetail line 6: has_many_attached :files

Column	Type	Nul l	Default
action_plan_row_id	bigint	No	
created_at	datetime	No	
month	string	No	
remark	text	Yes	
updated_at	datetime	No	

Indexes: idx_achievement_entry_details_row_month (action_plan_row_id, month) unique,
index_achievement_entry_details_on_action_plan_row_id (action_plan_row_id)

achievement_submission_rows [Action Plan & Achievement](#)

Purpose: Line items inside an achievement submission. Connects submitted achievement data back to action plan rows.

Related from this table: achievement_submission_rows.achievement_submission_id -> achievement_submissions.id,
achievement_submission_rows.action_plan_row_id -> action_plan_rows.id

Referenced by: None

Model associations:

- AchievementSubmissionRow line 2: belongs_to :achievement_submission
- AchievementSubmissionRow line 3: belongs_to :action_plan_row

Column	Type	Nul l	Default
achievement_submission_id	bigint	No	
achievement_value	integer	No	0
action_plan_row_id	bigint	No	
created_at	datetime	No	
month	string	No	
target_value	integer	No	0

Column	Type	Null	Default
--------	------	------	---------

updated_at datetime No

Indexes: index_achievement_submission_rows_on_achievement_submission_id (achievement_submission_id),
idx_achievement_submission_rows_unique (action_plan_row_id, month, achievement_submission_id) unique,
index_achievement_submission_rows_on_action_plan_row_id (action_plan_row_id), idx_achievement_submission_rows_month_row (month,
action_plan_row_id)

achievement_submissions Action Plan & Achievement

Purpose: Achievement submission workflow records for employees, with PO, vertical, COO, and director approval references.

Related from this table: achievement_submissions.coo_approver_id -> employees.id, achievement_submissions.director_approver_id -> employees.id, achievement_submissions.employee_id -> employees.id, achievement_submissions.po_approver_id -> employees.id, achievement_submissions.vertical_approver_id -> employees.id

Referenced by: achievement_submission_rows.achievement_submission_id -> achievement_submissions.id

Model associations:

- AchievementSubmission line 5: belongs_to :employee
- AchievementSubmission line 6: belongs_to :vertical_approver, class_name: "Employee", optional: true
- AchievementSubmission line 7: belongs_to :po_approver, class_name: "Employee", optional: true
- AchievementSubmission line 8: belongs_to :coo_approver, class_name: "Employee", optional: true
- AchievementSubmission line 9: belongs_to :director_approver, class_name: "Employee", optional: true
- AchievementSubmission line 10: has_many :achievement_submission_rows, dependent: :destroy
- AchievementSubmission line 11: has_many :action_plan_rows, through: :achievement_submission_rows

Column	Type	Null	Default
--------	------	------	---------

asa_theme_id	string	No	
coo_approver_id	bigint	Yes	
coo_remark	text	Yes	
coo_reviewed_at	datetime	Yes	
created_at	datetime	No	
current_stage	string	No	vertical
director_approver_id	bigint	Yes	
director_remark	text	Yes	
director_reviewed_at	datetime	Yes	
employee_id	bigint	No	
fco_id	string	No	
fco_name	string	No	
month	string	No	
po_approver_id	bigint	Yes	

Column	Type	Null	Default
po_id	string	No	
po_remark	text	Yes	
po_reviewed_at	datetime	Yes	
project_name	string	No	
state_code	string	Yes	
status	string	No	pending
submission_remark	text	Yes	
submitted_at	datetime	No	
to_id	string	No	
to_name	string	Yes	
updated_at	datetime	No	
vertical_approver_id	bigint	Yes	
vertical_remark	text	Yes	
vertical_reviewed_at	datetime	Yes	

Indexes: idx_achievement_coo_pending (coo_approver_id, status, current_stage), index_achievement_submissions_on_coo_approver_id (coo_approver_id), idx_achievement_director_pending (director_approver_id, status, current_stage), index_achievement_submissions_on_director_approver_id (director_approver_id), idx_achievement_submission_employee_scope (employee_id, project_name, to_id, month), index_achievement_submissions_on_employee_id (employee_id), idx_achievement_po_pending (po_approver_id, status, current_stage), index_achievement_submissions_on_po_approver_id (po_approver_id), idx_achievement_submissions_project_month_time (project_name, month, submitted_at), idx_on_status_current_stage_submitted_at_bd6c858085 (status, current_stage, submitted_at), idx_achievement_submissions_scope_status (to_id, project_name, month, status), idx_achievement_vertical_pending (vertical_approver_id, status, current_stage), index_achievement_submissions_on_vertical_approver_id (vertical_approver_id)

action_plan_fco_mappings [Employee, Access & Assignment](#)

Purpose: Maps employees to FCO-related action plan ownership or filtering scope.

Related from this table: action_plan_fco_mappings.employee_id -> employees.id

Referenced by: None

Model associations:

- ActionPlanFcoMapping line 2: belongs_to :employee

Column	Type	Null	Default
active	boolean	No	true
created_at	datetime	No	
employee_code	string	No	

Column	Type	Null	Default
employee_id	bigint	No	
fco_id	string	No	
fco_name	string	No	
updated_at	datetime	No	

Indexes: idx_action_plan_fco_active_employee (active, employee_id, fco_id), index_action_plan_fco_mappings_on_employee_code (employee_code), idx_action_plan_fco_employee_fco (employee_id, fco_id) unique, idx_action_plan_fco_mappings_employee_name (employee_id, fco_name, fco_id), index_action_plan_fco_mappings_on_employee_id (employee_id), index_action_plan_fco_mappings_on_fco_id (fco_id)

action_plan_import_files Action Plan & Achievement

Purpose: Tracks uploaded action-plan import files and the user who uploaded each file.

Related from this table: action_plan_import_files.uploaded_by_id -> users.id

Referenced by: None

Model associations:

- ActionPlanImportFile line 13: belongs_to :uploaded_by, class_name: "User", optional: true

Column	Type	Null	Default
byte_size	integer	No	0
content_type	string	Yes	
created_at	datetime	No	
error_message	text	Yes	
financial_year	string	No	
import_type	string	No	
imported_at	datetime	No	
original_filename	string	No	
row_count	integer	Yes	
status	string	No	saved
storage_path	string	No	
updated_at	datetime	No	
uploaded_by_id	bigint	Yes	

Indexes: index_action_plan_import_files_on_financial_year (financial_year), idx_action_plan_import_files_type_status_year_time (import_type, status, financial_year, imported_at), index_action_plan_import_files_on_import_type (import_type), index_action_plan_import_files_on_imported_at (imported_at), index_action_plan_import_files_on_status (status), index_action_plan_import_files_on_storage_path (storage_path) unique, index_action_plan_import_files_on_uploaded_by_id (uploaded_by_id)

action_plan_month_changes Action Plan & Achievement

Purpose: Audit/history rows for month changes made on action plan submissions.

Related from this table: action_plan_month_changes.action_plan_submission_id -> action_plan_submissions.id,
action_plan_month_changes.changed_by_id -> users.id

Referenced by: None

Model associations:

- ActionPlanMonthChange line 7: belongs_to :action_plan_submission, optional: true
- ActionPlanMonthChange line 8: belongs_to :changed_by, class_name: "User", optional: true

Column	Type	Null	Default
action_plan_submission_id	bigint	Yes	
asa_activity_id	string	Yes	
asa_theme_id	string	Yes	
changed_by_id	bigint	Yes
